## Boston Scientific

Boston Scientific is the world's largest medical device company dedicated to less-invasive medicine, employing more than 25,000 people across 26 manufacturing, distribution & technology centers, delivering more than 13,000 products in over 45 countries . It's mission is to improve the quality of patient care and the productivity of health care delivery through the development and advocacy of less-invasive medical devices and procedures.

### Our client said:

*"Budgeting constraints were always going to prove challenging on this project. Your ability to pre-empt and react proved to be invaluable towards its completion. Congratulations to all the team"*

Chris Legg, Turner Legg Consulting.

Boardroom

When Boston Scientific decided to co-locate two of their offices, Hemel Hempstead was chosen as an ideal location. Working closely with their Project Managers, Turner Legg Consulting, we created an environment that met their needs, providing a large number of training and meeting areas, along with office accommodation that was comfortable, yet maintained their high corporate standards. The result is a truly stunning project, delivered on time and within budget.
